$\pi$  ( $\pi$ ) is a mathematical Constant. That is the ratio of the circumference of circle to its diameter.

The symbol  $\pi$  ( $\pi$ ) was devised by British mathematician William Jones in 1706 to represent this ratio. It is a symbol mathematical symbol which came from Greek word  $\pi\epsilon\rho\iota\mu\epsilon\tau\rho\epsilon\iota\alpha$  (meaning "circumference" or "periphery"). William Jones had taken the first word  $\pi$ . It was later on popularized by Swiss mathematician Leonard Euler in 1737.
